

Cascade (POU Water Cooler)

Crystal Mountain introduces the Cascade, a dedicated Point-of-Use water cooler to meet the needs of our POU customers. The Cascade's state-of-art design offers two water temperatures, cold and cool. Durably constructed for high volume rental applications, with high chilling capacity in a pressure reservoir.

It also features hygienic solutions such as concealed faucets, a sensitisation fluid entry point and security against unauthorised entry.

Ideal for installation in public institutions, schools, government offices, colleges, etc., The Cascade is especially designed to withstand robust use.

Cascade: Cook & Cold

Concealed faucets

Filter storage compartment
(Filter optional)

Plumbed-In waste facility

Specifications:

ITEM		SPECIFICATIONS
Power rating		Single phase 220-240VAC 50Hz
Power Consumption		116W
Cold	Compressor	Hermetically sealed, PTC starter with overload protector
	Temp control	2-10°C(35.6-50.0°F)
	Capacity	1.95L (0.52 gal)
Refrigerant charge		R134a 75.0g (2.6 oz), CFC Free
Filter system		Not Included
Noise(sound power level)		<=53db (In Cabinet)
Product weight		C&C: 27.4kg (60.4 lb)
Product boxed weight		C&C: 30.3kg (66.8 lb)
Product dimensions		313(W) X 313(D) X 975(H)mm 12.3"(W) X 12.3"(D) X 38.4"(H)
Product boxed dimensions		375(W) X 400(D) X 1055(H)mm 14.8"(W) X 15.8"(D) X 41.6"(H)
Loading quantity		20' Container: 168 Units 40' Container: 348 Units
Certifications		CE, WRAS
