

Pinnacle (POU Water Cooler)

Crystal Mountain introduces the Pinnacle, a dedicated Point-of-Use water cooler to meet the needs of our POU customers. The Pinnacle's state-of-the-art design offers three water temperatures, and LCD display that features icons for water selection, and a filter change indicator. Durably constructed for high capacity rental applications, it also features hygienic solutions such as concealed faucets, a sanitization fluid entry point and security against unauthorized entry of foreign particles.

Relying on the foundation of Crystal Mountain quality and reliability, the Pinnacle also has numerous customer driven design features including; an optional UV light, filter storage compartment, and dual function drip tray. The Pinnacle is both functional and stylish and is definitely the POU water dispenser of the future.
