Stronger Storm Plastic Parts

Form 2003002

As part of the commitment to continuous improvement and product enhancement, Crystal Mountain is changing the plastics used to produce several of the parts used on the Storm family of products. The parts were made using an ABS type plastic and are changing to an ABS and Polycarbonate blend which will increase the strength and durability of the parts. The internal parts will transition to a dark gray in color so that the different generations of the part can be differentiated. The external cabinetry will remain black but will have an identifier of “PC” embossed into the back of the part. As stock is depleted, these new parts will replace the older parts in manufacturing and spare parts.

The parts affected by this change are listed below. If the parts listed below are used in an assembly, the assembly would include the new parts as well.

Old #	Description	New #	Color
PLC-C150001	Base Plate	PLC-C150204	Black
PLC-C150005	Top Cover	PLC-C150205	Black
PLC-C150025	Top Cover Catch	PLC-C150206	Gray
PLC-C150054	Clip, Bottle Adapter	PLC-C150207	Gray
PLC-C150029	Top Shelf	PLC-C150208	Gray
PLC-C150143	Hinge Cover	PLC-C150209	Gray
PLC-C150111	Drip Tray Base	PLC-C150212	Black
