

# Installation Instructions

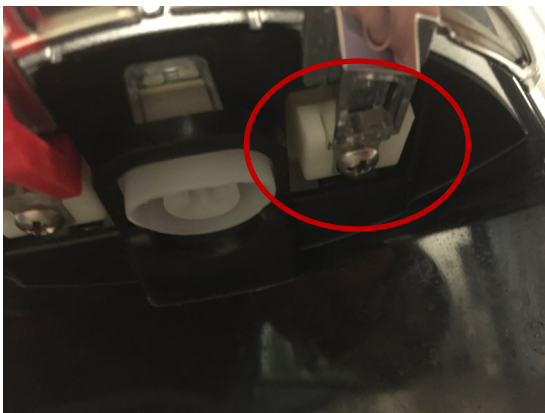

## K2 Faucet Handles

Form 1707001

Installation of the K2 Faucet handles is a very straight forward operation. ① Locate the screw in the under-side of the handle and unscrew it using a Philips head screwdriver and remove the handle ②. Slide the new handle into place (pulling down on the white piece if necessary) ③ and screw it in using a Philips head screw driver, being careful not to overtighten. ④
